

## **Staff Geologist Position Available**

TPI Environmental, Inc., located in Easton, PA, and a leader in environmental field services, is currently seeking a entry level Geologist, Engineer or Environmental Scientist. The qualified candidate must have a BS degree in Geology, Environmental Science, Engineering or a closely related field and 0 to 2 years of experience in environmental consulting. This is a full-time position based out of our Easton, PA office and we desire to fill it immediately.

TPI will provide on the job training of geophysical data acquisition and processing including EM, GPR, and electrical resistivity. TPI will provide 40-hour OSHA training if the candidate does not hold a current certificate. Must have strong computer and analytical software proficiency or ability to quickly grasp programs such as Excel, Surfer, and Word.

The candidate must have the ability and desire (after training) to perform single or multiple day surveys in field with minimal staff support. Our field work is in NJ and Eastern PA areas and would rarely require overnight travel. The candidate must be hands on and have a strong mechanical aptitude and ability as demonstrated by past work experience and/or interests.

**Salary & Benefits:** \$40,000 to \$50,000 per year. Full and generous benefits including;

- Health Insurance paid 100%
- Annual Bonus – paid every year for 25 years
- Annual Performance Reviews
- Overtime Pay
- 401(k) with company match
- Dental coverage
- Paid field lunches
- Paid Time Off – 3 weeks
- Paid Holidays
- Educational Assistance Program
- Training and Development Opportunities
